Dear Mr. Hagen:

Re: Disposal of Asbestos from  
Amoco Oil Company  
Whiting, Indiana

This letter acknowledges the request for disposal dated July 22, 1980, from Amoco Oil Company, Whiting, Indiana.

Approval is hereby granted for disposal of 100 cubic yards of asbestos, on a one-time-only basis, at the Gary Land Development Landfill, Lake County. The waste is to be mixed with refuse and covered with a minimum of six inches of cover soil immediately. This material is to be removed by the Amoco Oil Company from the Ken Industries property on North Sheffield Avenue. Only the asbestos from Amoco Oil and any related waste is to be removed. All the fire material and debris and any drums that may be located near asbestos material are to remain and are not to be considered as a part of this approval.

The approval is granted subject to the following conditions:

1. The generator and/or hauler must contact you to notify you of the time of disposal and conditions of shipment.
2. Appropriate protective clothing should be used during handling and disposal to insure proper protection from exposure to the material, especially contact with eyes, skin and inhalation.
3. All asbestos must be sufficiently dampened to prevent airborne contamination during compaction.

This approval will be revoked if the landfill fails to maintain compliance with 330 IAC 4-1, et seq. (Regulation SPC 18). Any necessary local approval must be obtained from the Lake County Health Department.

Mr. Lawrence Hagen
